### Exercise 2 - Requirements

---

#### Booking Application Super Time – requirements

Super Time is a fictitious booking system that is used via a web browser. Super Time works based on following requirements.

REQ01	The user must be able to sign in to the system and enter their name, address and phone number.	
REQ02	Admin must be able to input timeslots into the system.	
REQ03	The user must be able to book time slots in the system.	
REQ04	A timeslot can be a group or an individual timeslot.	
REQ05	A timeslot must have the following data: organiser, date, time, location and price.	
REQ06	Each user has a unique customer number.	
REQ07	The user can have several bookings at a time.	
REQ08	Locations can have only one booking at a time.	
REQ09	A booking can be in only one location.	
REQ10	A booking has a unique booking number that the user can use to cancel the booking.	
REQ11	A user can give a recommender (a person who recommended this service) upon sign up.
